

“After taking a long break from paid work, I was looking to redevelop my career. I researched Certificate IV in Training and Assessment courses and decided on the Park Orchards Learning Centre because of the high contact hours, cost, course content and convenient location. My new skills are current and marketable and I can confidently prepare session plans, mentoring, induction and facilitation programs. Not only were the staff very friendly, I have also made new friends and am ready to commence work”.
