

I was not confident about returning to studies. But it has turned out to be the best thing I have ever done. The course was aimed at people who wanted to study, but also had to carry on their established lives at the same time. I endured some personal hiccups during the way and the staff at Park Orchards Learning Centre was very supportive of my predicament. During six months I have learnt and achieved so much. I started my placements early in the course and even at that early stage of the course I was confident to go out and support children that needed extra assistance. The course offered practical knowledge, it was direct and concise.

Renae Gonis – Certificate III in Education Support
