Ethical AI for students

The Do's and Don'ts of ChatGPT for students

Do's

- ✓ Use it for research or brainstorming

- ✓ To get a starting point, inspiration, or clarification on a concept or idea

- ✓ For summaries, definitions or overviews

- ✓ For proofreading

- ✓ To ask questions about your study material you don't understand

Don'ts

- ✗ Don't use it to answer questions that specifically ask for YOUR personal reflections, experiences or thoughts

- ✗ Blindly trust AI generated information or answers

- ✗ Use it to answer questions that require reference to an official legislation or policy - use the direct source

- ✗ Copy and paste answers directly from the AI - re-write in your own words!

You're being assessed on *your understanding*, *your thinking*, and *your voice*.

Use AI to support your learning, not to replace it!
