#### Unique Student Identifier (USI)

If you are undertaking nationally recognised training delivered by a Registered Training Organisation you will need to have a Unique Student Identifier (USI). There is no cost involved in creating a USI and you can create your own online or POCH&LCI can assist you. For more information or to create your USI refer to www.usi.gov.au

POCH&LCI will NOT issue a certificate of any kind to a student if they have not supplied a Unique Student Identifier (USI).

### **Application Process**

Prospective students are required to participate in a pre-training review to discuss their goals and the suitability of the chosen course. Prospective students may be required to complete a language, literacy and numeracy assessment to identify whether modification of training and assessment strategies is required.

POCH&LCI will at all times comply with the requirements of equal opportunity legislation in the selection and assessment of students. Students will be offered a place in order of application providing that they meet entry requirements. Once a class is full, students will be placed on a waiting list for the next available course.

## **Recognition of Prior Learning/Current Competencies**

Your existing skills and knowledge may gain you advanced standing or credit towards the completion of your course. These skills may have been gained through previous study, employment, voluntary work or general life experience. If you would like more information about RPL for a particular course please speak to the out VET Coordinator. RPL is best arranged prior to commencing your course. Further details about RPL are provided prior to and at enrolment and again at orientation.

## Students with Specific Needs or Students with Disabilities

POCH&LCI encourages applications for enrolment from students with specific needs. Within the capabilities of the organisation, every effort will be made to meet the additional needs of students - provided they meet the entry requirements of the course. Alternate delivery, reasonable adjustment and assessment methods will be used when and where appropriate.
